VW VEHICLE ADAPTERS

Volkswagen uses a non-standard jack on its antenna cable that won't plug into your new replacement radio. Our simple in-line adapter (above) has a standard male antenna plug on one end and a female Volkswagen/Audio jack on the other. Just connect your Volkswagen antenna cable to the adapter, then plug it into your new radio, and you're good to go.

For more information log on : www.DBLink.net

DBHLC200 : Hi-Low Converter

2 Channel Hi - Low Level Converter

- 50 Watt factory radio speaker level input capacity
- Allows you to Connect your Stock Stereo to an Aftermarket Amplifier
- Fully adjustable stereo outputs

BUZZMAT™

BY DB LINK

Are you having problems with your license plate rattling and sounding louder than your car? Get rid of the problem with a Buzzmat license plate kit. Simply remove your license plate, clean the rear surface and apply the Buzzmat. The special designed Buzzmat material will eliminate unwanted resonances and vibrations by absorbing them and cancelling them out. With the rattle gone you will be able to enjoy your music the way it was meant to be heard.

Features

Chemical Resistant:

- Mineral oils and water
- Onyx Metallic Thermal Barrier
- Black Butyl Elasto Mass
- Neutral Wax Paper Release Liner
- Eliminate License Plate Rattle
- Impress with Bass Not Noise
